3 Compiled by the Grenada National Training Agency.
1. TVET systems

TVET in the Grenada education system

Tertiary (ISCED 5-8)
- PhD programmes 3-5 years
- Master’s programmes 1-3 years
- Bachelor’s programmes 3-4 years

Post-secondary non-tertiary (ISCED 4)
- Post-secondary courses GCE Advanced Level / Caribbean Advanced Proficiency Examinations (CAPE) 2 years
- Post-secondary N/CVQ Levels 1 & 2 1-1.5 years

Upper Secondary (ISCED 3)
- Upper Secondary 2 years
- Technical and vocational education at all grades

Lower Secondary (ISCED 2)
- Lower Secondary 3 years
- Technical/ skills components embedded in core general education programmes at all grades

Primary (ISCED 1)
- Primary Education (Common Entrance Examination, CEE) 6 years
- Technical/ skills components embedded in core general education at Grades 5 & 6

General education
TVET as an optional subject
Compulsory education
Education pathway

*Compiled by UNESCO-UNEVOC International Centre. For a more detailed overview of the education system, please refer to the figure overleaf.*
Education System in Grenada – National Sources

Labour Market

- Tertiary Education (ISCED 5-8)
- Post-secondary Non-Tertiary Education (ISCED 4)
- Technical Courses
- N/CVQ Levels 3 to 5
- Skills Training Centers

Caribbean Secondary Education Certificate (CSEC)
Cambridge General Certificate in Education (GCSE-O Level)

- Form 5
- Form 4

Upper Secondary School (ISCED 3)

- Form 3
- Form 2
- Form 1

Lower Secondary School (ISCED 2)

Caribbean Primary Exit Assessment (CPEA)

- 6th Grade
- 5th Grade
- 4th Grade
- 3rd Grade
- 2nd Grade
- 1st Grade
- Kindergarten

- Primary Education (ISCED 1)

- Pre-Primary Education (ISCED 0)

- Early Childhood Education and Development (ECED)

Extended Primary School

School Leaving Certificate

Labour Market
Formal TVET system
In Grenada, TVET is integrated in the general education pathway from the primary education level onwards. Students can choose these courses and intensify their studies at the post-secondary non-tertiary level.

Technical courses are offered at the primary education level (ISCED 1)

| Duration: | One day per week from grades 5 and 6 throughout 1 school year |
| Admission requirements: | No special requirements for admission |
| Taught in: | Primary schools |

The courses consist of 3 classes which are Clothing and Textiles, Woodwork, and Food and Nutrition and are included in the general education curriculum. Students can continue the TVET path in the lower secondary. In order to gain access to secondary school, students sit the Caribbean Primary Exit Assessment (CPEA).

Technical courses are provided at the lower secondary level (ISCED 2).

| Duration: | 2-3 40min session per week throughout 1 school year |
| Admission requirements: | CPEA but no special requirements regarding TVET courses |
| Taught in: | Secondary schools |

Woodwork, Home Management, Electronics and Electrical Technology, Clothing and Textiles, Food and Nutrition are offered at this level. Students can continue these courses at the upper secondary level.

Technical courses are offered at the upper secondary level (ISCED 3).

| Duration: | 3-4 40min sessions per week throughout a school year |
| Admission requirements: | No special requirements for admission |
| Taught in: | Secondary schools offer various courses (see below) |

The institutions which offer these courses are all under the Ministry of Education and Human Resource Development. Various public, private and religious schools offer different courses. Technical Drawing is offered in all secondary schools but Air Conditioning and Refrigeration are offered by two secondary schools and Mechanical Engineering can only be studied at one secondary school. In detail, the following courses are offered by these schools:

- Building and Furniture Technology
- Mechanical Engineering (BOCA only)
- Electronic and Electrical Technology
- Technical Drawing (offered by all secondary schools)
- Food & Nutrition
- Clothing & Textiles
- Home Management
- Auto Mechanic and Air Conditioning & Refrigeration (BOCA & SMSS only)
Apart from mechanical engineering, clothing and textiles, and home management, the courses can be continued and intensified at the state T. A. Marrystone Community College (TAMCC) or the private New Life Organization (NEWLO). Students (General or Technical) will sit the Caribbean Secondary Education Certificate (CSEC) or the Cambridge General Certificate in Education (GCE) O-level examinations at the end of secondary education. Additionally, the CVQ which is awarded by the CXC to students in secondary school was introduced in 2017.

CVQs introduced in secondary schools create the opportunity for students to have the option of graduating with an additional certification. Students who fail the access to upper secondary education (Grade 10 and 11 to sit the above mentioned exams) can obtain a School Leaving Certificate (SLC). This provides them with the opportunity to pursue further TVET programmes at TVET training centres or gain a certification for a profession.

Advanced and specialized technical courses are offered at the post-secondary non-tertiary level (ISCED 4).

<table>
<thead>
<tr>
<th>Duration:</th>
<th>1 ½ years or 3 semesters</th>
</tr>
</thead>
<tbody>
<tr>
<td>Admission requirements:</td>
<td>Basic literacy and numeracy skills</td>
</tr>
<tr>
<td>Taught in:</td>
<td>Public community college (TAMCC) or other training institutions (Faith based, not-for-profit, NGO and private)</td>
</tr>
</tbody>
</table>

These courses include the following specializations:

- General Construction
- Carpentry
- Cosmetology
- Hospitality Arts
- Computer Engineering
- Early Childhood Development
- Electrical Installation
- Furniture Making
- Garment Production
- Plumbing
- Refrigeration and Air Conditioning
- Small Engine Repairs
- Crop Production
- Poultry Rearing
- Agro-Food Processing
- Bar and Restaurant Service
- Food Preparation and Cookery
- General Agriculture
- Massage Therapy
These courses can lead to further training for higher level Caribbean Vocational Qualification/National Vocational Qualification (CVQ/NVQ) certification (find more information in Chapter 5).

Specialized courses are offered at the tertiary level (ISCED 5-8).

| Duration: | 2-3 years, depending on the programme and planned degree |
| Admission requirements: | Varies, find details below |
| Taught in: | T. A. Marryshow Community College |

The TAMCC offers a variety of programmes with which the students can gain one of three degrees upon completion, namely:

- Associate Degree
- Certificate Level II
- Technical Diploma Level II

The Associate Degree programme lasts two years (full-time) or three years (part-time) and can be completed in various subjects, e.g. technology (building, electronics, automotive, etc.), office administration, culinary arts or hospitality studies. Most of the programmes require 5 CSEC/GCE, including English (A) and Maths (A), some require a technical or science subject.

The Certificate Level II programmes last 2 years and can be obtained in building trades and services, i.e. plumbing, masonry, refrigeration, carpentry and joinery, and in environmental sustainability practices. To pursue this degree, the students have to obtain 4 CSEC/GCE, including English A.

The Technical Diploma level II programmes last 2 years and include, among others, office administration, fashion design, welding, health care assistant and hospitality services. Basic requirements for some courses are only literacy and numeracy while others demand 2 CSEC/GCE.

Non-formal and informal TVET systems

All government ministries offer non-formal TVET programmes from time to time. These programmes are sometimes also provided by non-governmental organizations (NGOs). Some examples include:

| Programme: | Electrical Installation, Refrigeration and Air-conditioning, Culinary Arts, Information Technology, Business Development and Sewing |
| Ministry/organization responsible: | GRENCASE (Grenada Citizens Advice and Small Business Agency) - NGO |
| Target audience: | Grassroots, unemployed persons, displaced workers |
| Admission requirements: | Participants must be at least 16 years old to attend the programme. Advanced or intermediate courses require trainees to have undergone basic introductory
The National Training Agency (NTA, see Chapter 2) offers a programme called Assessment of Prior Learning (APL). It assesses candidates' experience and all non-formal or formal learning qualifications to ascertain the level of competence. A competent APL candidate receives either a CVQ or an NVQ (Caribbean Vocational Qualification/National Vocational Qualification) based on the occupation assessed against and following the competency-based methodology of education and training. The CVQ/NVQ represents the achievement of a set of core work practices within an occupational area at various levels.

2. TVET strategy and key policy documents

Technical and Vocational Education and Training (TVET) in Grenada aims to provide demand-driven training and certification programmes to enhance the employability of Grenada’s workforce. These measures should increase productivity and competitiveness of the labour force.

The following key documents help guide the development of TVET in Grenada.

<table>
<thead>
<tr>
<th>Name of document</th>
<th>The Grenada Council for Technical and Vocational Education and Training Act (GCTVET)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Date entered into force</td>
<td>Act no.9 of 2009</td>
</tr>
<tr>
<td>Website link</td>
<td><a href="http://t1p.de/f261">http://t1p.de/f261</a></td>
</tr>
<tr>
<td>Key points and objectives</td>
<td>The Grenada Council for Technical and Vocational Education and Training (GCTVET) provides guidance and supervision to the NTA and is an advisory body to the Minister of Education</td>
</tr>
</tbody>
</table>
with regards to policies and strategies required for an efficient and effective system of TVET that serves the needs of Grenadians. The GCTVET Act established the National Training Agency (NTA) as the national body to oversee, design, monitor, co-ordinate and promote the establishment of technical and vocational education and training to meet the skills development needs of Grenada. Among the NTA's main functions are:

- To advise the Council on the development of new standards relating to TVET and to assist in the development of the competencies and qualifications relating to such standards;
- To apply or make arrangements for tests and other methods of ascertaining the standards of efficiency for persons seeking TVET;
- To approve the design and delivery of training courses;
- To manage the accreditation and registration of training providers and the provision of quality services in the prescribed manner; and
- The establishment of a system of national vocational qualifications, course entry qualifications and job-related qualifications, among others.

<table>
<thead>
<tr>
<th>Name of document</th>
<th>National Training Agency Strategic Development Plan 2014-2016</th>
</tr>
</thead>
<tbody>
<tr>
<td>Date entered into force</td>
<td>2014</td>
</tr>
<tr>
<td>Website link</td>
<td><a href="http://t1p.de/ffta">http://t1p.de/ffta</a></td>
</tr>
</tbody>
</table>

Key points and objectives

The NTA's National Training Agency Strategic Development Plan 2014-2016 is part of the overall goals to increase the competence of the national workforce through the adoption of occupational standards and CVQ/NVQ. The plan emphasizes the relevance, quality and standards in the curriculum form of training, assessment, qualifications; and deepening relations amongst public/private training institutions, non-governmental organisations, and the government. Among the objectives are:

- To increase the awareness of the importance of workforce development by changing the perception of employers and employees to the value of skill and vocational training. This would ideally result in increased private sector desire for enterprise based training to improve workforce productivity;
- To seek financial sustainability for workforce training through the introduction and maintenance of an Enterprise Training Fund (ETF)
- To ensure that Grenada has the quality assurance capacity to address the demands for enterprise based training and technical and vocational education and training following the introduction of an ETF;
- To change public perception of negative TVET stereotypes through a sustained communications strategy.

<table>
<thead>
<tr>
<th>Name of document</th>
<th>National Training Agency Strategic Development Plan 2018-2020</th>
</tr>
</thead>
<tbody>
<tr>
<td>Date entered into force</td>
<td>2018</td>
</tr>
<tr>
<td>Website link</td>
<td><a href="http://t1p.de/psvd">http://t1p.de/psvd</a></td>
</tr>
</tbody>
</table>

Key points and objectives
The Strategic Development Plan 2018-2020 aims to continue to strengthen the competence of Grenada’s workforce by maintaining a comprehensive and integrated training system that seeks to:

- Increase employers awareness of demand for Levels 3 and 4 skills in the workplace;
- Continue to strengthen the capacity for competency-based education and training on a national level;
- Establish and operationalize an Enterprise Training Fund (ETF) to sustain workforce training;
- Change public perception of TVET programmes by building awareness of the value of CVQ/NVQ qualifications;
- Reform the educational system to better align with labour market priorities;
- Establish a centralized Assessment Centre.

Name of document | Accreditation Act
--- | ---
Date entered into force | Nov. 15 of 2011
Website link | [http://t1p.de/xluj](http://t1p.de/xluj)

The Accreditation Act was the foundation for the establishment of the Grenada National Accreditation Board (GNAB) in 2014. GNAB is responsible for the accreditation of post-secondary non-tertiary and tertiary education programmes and institutions.

### 3. Governance and financing

**Governance**

The **Ministry of Education and Human Resource Development** is responsible for the development of TVET policies. The Minister for Education and Human Resource Development sets the direction of the policies regarding TVET. The GCTVET Council is an advisory body and provides guidance and policy advice to the Minister. The governance structure is centralized with the Minister of Education and Human Resource Development heading the overall development of TVET policies.

The National Training Agency is responsible for developing, implementing and maintaining a national TVET plan linked to local training needs. The Caribbean Association of National Training Agencies (CANTA) is the implementing body of the Regional Coordinating Mechanism for TVET (RCMVT) and is responsible for overseeing and syncing TVET policies in line with the Caribbean Community’s (CARICOM) regional mandates. Furthermore, Grenada’s development of the educational system is supported by the Global Partnership for Education (GPE). Its membership in the Organization of the Eastern Caribbean States (OECE) qualifies Grenada for this support.

**Financing**

Several ministries are responsible for funding the formal and non-formal TVET system in Grenada, namely the Ministry of Education and Human Resource Development, the Ministry of Youth, the Ministry of Social Development and the Ministry of Finance. Financial assistance for TVET in schools is secured through the budget of the Ministry of Education and Human Resource Development. Other TVET related education programmes are financed through
government subvention as well as loans and grants from international agencies. Furthermore, direct funding is available through projects and programmes, e.g. by the European Union (EU) or the Food and Agricultural Organization of the United Nations (FAO). The Market Access and Rural Development Programme (MAREP) is, among others, closely collaborating with the NTA to support unemployed youth in achieving their CVQ/NVQ Level 2 certification. This programme aims at supporting the youth to find a job in the respective labour market fields or become self-employed. As of 2017, with support from MAREP, training was provided in 18 occupational areas. The Caribbean Development Bank funds the Awakening Special Potential by Investing in Restoration and Empowerment (ASPIRE) project, which was first implemented in the academic year 2018/2019 and runs under the auspices of the Ministry of Social Development and Housing. This project provides financial assistance for graduate and postgraduate studies, i.e. MA and PhD programmes, in the field of social work and skills training interventions leading to CVQ/NVQ certifications to vulnerable and at-risk youths.

Currently, the TVET sector is solely financed through government and project funding. The NTA’s strategic development plan 2014-2016 called for the establishment of a contributory national Enterprise Training Fund. A feasibility study for this proposal has been done, the subsequent development plan 2018-2020 aims at implementing the fund. The establishment of this fund would enable national activities regarding TVET to be channelled through a single source and utilized more efficiently.

TVET in the formal education system at the secondary level is free, i.e. there is not tuition fee set for courses. However, at the post-secondary and tertiary level, tuition fees are set by the institutions offering the programmes, e.g. TAMCC or NEWLO.

4. TVET teachers and trainers

TVET instructors delivering TVET programmes at Approved Training Centres (ATC’s) are trained in Competency Based Education and Training (CBET) methodology. However, this is not the case for all TVET teachers within the formal education system such as secondary schools where only a small number of teachers are trained according to CBET. In general, teachers at the upper and lower secondary education level need to have an associate degree or a level 3 CVQ/NVQ qualification to be able to teach. At the post-secondary non-tertiary level, teachers are required to have one level of training above the level which they are providing instructions in. In addition, they have to gain required units of the level 4 CVQ in Training and Development. At the tertiary level, a diploma, a first degree or equivalent technical qualifications and level 4 CVQ units in Training and Development are mandatory. The NTA offer pre-service TVET training for instructors, facilitators and assessors. In-service TVET training is provided by both the TAMCC and the NTA.
5. Qualification system and quality assurance

National Qualifications Framework (NQF)

In Grenada, the implementation of TVET is guided by the Regional TVET Qualification Framework. It consists of 5 levels as follows (see Table 1 overleaf):

Table 1: Regional Qualifications Framework Levels (NVQ/CVQ Levels and TVET Qualifications)

<table>
<thead>
<tr>
<th>NVQ/CVQ Level</th>
<th>TVET Qualification</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Semi-skilled Supervised Entry Level Worker</td>
</tr>
<tr>
<td>2</td>
<td>Independent or Skilled Worker Unsupervised</td>
</tr>
<tr>
<td>3</td>
<td>Technician/Supervisor</td>
</tr>
<tr>
<td>4</td>
<td>Technologist/Master Craftsman Manager/Graduate Professional</td>
</tr>
<tr>
<td>5</td>
<td>Chartered/Advanced Professional/Senior Manager</td>
</tr>
</tbody>
</table>

Table 2: CARICOM Qualifications Framework Levels (Academic Qualifications)

<table>
<thead>
<tr>
<th>Qualification Level</th>
<th>Academic Qualification</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Certificate</td>
</tr>
<tr>
<td>2</td>
<td>Certificate</td>
</tr>
<tr>
<td>3</td>
<td>Certificate</td>
</tr>
<tr>
<td>4</td>
<td>Advanced Certificate</td>
</tr>
<tr>
<td>5</td>
<td>Diploma</td>
</tr>
<tr>
<td>6</td>
<td>Higher Diploma</td>
</tr>
<tr>
<td>7</td>
<td>Bachelor’s degree</td>
</tr>
<tr>
<td>8</td>
<td>Postgraduate Certificate and Diploma</td>
</tr>
<tr>
<td>9</td>
<td>Master’s degree</td>
</tr>
<tr>
<td>10</td>
<td>Doctoral degree</td>
</tr>
</tbody>
</table>

http://t1p.de/w1p5

It is important to note that the TVET qualification framework levels have not yet been synchronized with the academic qualifications.

Quality assurance

The NTA is responsible for quality assurance of TVET institutions in Grenada. All TVET centres need to seek centre approval status from the NTA in order to provide training leading to CVQ/NVQ qualifications. They are expected to follow the steps outlined in the Centre Approval Guidelines of the National Training Agency. The GNAB is responsible for the accreditation of all post-secondary education (ISCED 4-8) except TVET programs which are provided for by the NTA.
TVET curriculum
The Ministry of Education and Human Resource Development (MoEHrd) and the NTA are responsible for the development, updating and quality of the TVET curriculum. In order to do that, curriculum committees have been established for different occupational areas. These committees produce curricula for occupational standards which get approved by the GCTVET. Committee members comprise of MoEHrd officials and sectoral representatives.

6. Current reforms and policy discussion
Discussions about the TVET sector in Grenada revolve around the following topics:

- Enterprise Training Fund proposal;
- Introduction of CVQ/NVQ in secondary schools;
- Promotion of greater opportunities for certification at levels 3, 4 and 5;
- Making TVET more responsive to labour market needs.
- Development of a National TVET Policy

Challenges
According to NTA, Grenada is facing the following challenges to the TVET system:

<table>
<thead>
<tr>
<th>Financing</th>
<th>The majority of TVET programmes are state funded and highly dependent on grants and loans from donor agencies.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Insufficiently trained instructors at higher qualification levels</td>
<td>More training for instructors/teachers at higher qualification levels is needed so they can provide the much needed instruction at qualification levels 3, 4 and 5.</td>
</tr>
<tr>
<td>Facilities Development</td>
<td>TVET facilities are not at a level to provide instruction at levels beyond the qualification level 2. The facilities are under-funded, outdated and in some cases dilapidated. More modern equipment is needed.</td>
</tr>
<tr>
<td>An inadequate GCTVET Act</td>
<td>The GCTVET Act needs to be amended to provide more comprehensive regulation which provides for financing, general structure and outline of TVET and which will lead to the creation of a national TVET strategy.</td>
</tr>
<tr>
<td>Changing TVET perception and increasing collaboration with the industry</td>
<td>Engaging industry and employers in TVET programmes and activities has been difficult so far. Their involvement would enhance productivity and offset skills mismatches. In order to achieve this, additional mechanisms of productive collaboration between the industry and TVET need to be established.</td>
</tr>
</tbody>
</table>
