1. TVET in Germany is an important **driver of social transformation** and the foundation for economic success.

2. The **energy transition** as an exemplary field of action requires a **high degree of quality and flexibility** in education and training.
Strategic approach to designing occupational career pathways
Strategic Approach to design occupational career pathways

1. Make TVET orientation tangible!

2. Expand TVET opportunities!

3. Strengthen TVET participation!
   a) Flexible entry and transition points
   b) Flexible occupational pathways

4. Expand higher TVET!
1. **Identifying and analysing occupations** relevant to the energy transition and developing **exemplary occupational career pathways**

2. **Adapting initial and continuing TVET regulations** and developing **partial and additional qualifications and competencies** as national standards or regionally differentiated.

3. **Piloting concepts** in regions of highest demand.
