BILT expert group on the dual green and digital transition in the hospitality and tourism sector;
Expert Group Lead 2023

1. Background: the BILT Project

The Bridging Innovation and Learning in TVET (BILT) project is funded by the German Federal Ministry for Education (BMBF) and implemented by UNESCO-UNEVOC with the support of the German Federal Institute for Vocational Education and Training (BIBB). The target groups of the BILT project are stakeholders in TVET: policy makers at Ministries and national bodies, labour market partners, TVET providers, and researchers.

Project activities are carried out along the following lines:

- **Bridging line:** Strengthening the bridges between TVET stakeholders in Africa, Asia-Pacific and Europe. The main activity in this line for the current biennium are 6-monthly meetings in Europe (Finland, June 2022); Africa (Kenya, November 2022); Asia-Pacific (Singapore, June 2023) and the Learning Forum (October/November 2023)

- **Innovation line:** Fostering innovation and knowledge generation. This includes the publication of Innovation and Learning Practices (ILP) from the three project regions that are innovative, transferable to other contexts, and particularly relevant in relation to the project themes and objectives and UNESCO priorities. The Innovation line also comprises the work of the BILT expert groups.

- **Learning:** Reinforcing learning and capacity building. A regular activity under the learning line are the regular ‘Learning Labs’, webinars that serve to explore in-depth specific Innovation and Learning Practices as an opportunity for peer learning. Furthermore, capacity building workshops for self-assessment with regards to the ‘three I’s process’ are part of the learning line.

As of 2022, the focus **TVET themes** are new green and digital skills and competencies. For 2022-2023, work under the BILT project will examine the impact of the dual green and digital transition on skills needs for the hospitality and tourism sector and the TVET system. The selection of the sector is based on the scoping surveys for Africa and Asia-Pacific that were carried out in 2021 and included a prioritization of focus sectors. This focus will be expressed through all lines of the BILT project.

2. The BILT Expert Group

Purpose of the Expert Group

The objective of the expert group is to undertake analysis and prepare content and to:

- Summarize current debates around new skills for the digital and green economy/society in the hospitality and tourism sector within the three BILT regions
• Identify, analyse and deliver innovative practices from the hospitality and tourism sector in each BILT region
• Release practice recommendations and develop knowledge materials on new initiatives and practices

The Leads and Co-Leads will organize this process, the meetings, discussions and the expected outputs in alignment with BILT staff from UNEVOC and BIBB.

Proposed group structure and size

The expert group shall be led and coordinated by one lead and two co-lead institutions, with one being from Africa, one from Asia and the Pacific, and one from Europe. The Lead institution in addition has the overall responsibility for group coordination and project deliverables.

The group shall be comprised of up to four members from each of the project regions plus three to four representatives of international organizations. Additional experts who are not permanent members of the group can be selected, taking into account country and gender balance, and may be consulted on an ad hoc basis.

Duration of assignment

The deliverables outlined in these Terms of Reference shall be developed between February 2023 and November 2023. Pending the recommendations and opportunities identified at the end of this period, and subject to funding availability, the project may be prolonged in 2024.

(b) Coordinate, collect and consolidate the contributions of the group members in the respective region and capture this in the meeting reports.

(c) Identify three previously unpublished innovative initiatives (to become new BILT Innovation and Learning Practices - ILP), implemented by TVET institutions from the respective region, in the field of tourism and hospitality and on new digital skills and skills to make the sector more sustainable.
   I. Collect information about the innovative initiatives according to UNESCO-UNEVOC’s innovation criteria and indicators (relevance, innovation, transferability)

The Lead is to carry this out for the respective region, and consolidate with the results of the Co-Leads in the other two regions.

Communication measures may include: journal articles and newsletters from Expert Group members; presentations at non-BILT events; web articles; social media; organization of information sessions.

In designing the outputs, the Lead and Co-Leads must consider the multiplicity of target groups of the BILT project (policymakers; labour market partners; researchers and practitioners).
